Application to Enroll in EECS H196A,B Senior Honors Thesis Research

In order to enroll in Senior Honors Thesis Research, please complete the information requested below. Please note that H196A/B is only open to students in the EECS Honors Program. Be sure to indicate the exact course designation for which you want to receive credit. After securing the approval of your supervising faculty member, return this form to: Center for Student Affairs, 205 Cory, for EE courses, and CS Division Office, 387 Soda, for CS courses. You will then be given the appropriate course control numbers with which to complete your registration.

Catalog Description:
Thesis work under the supervision of a faculty member. A minimum of four units must be taken; the units may be distributed between one and two semesters in any way. To obtain credit a satisfactory thesis must be submitted at the end of the two semesters to the Electrical and Engineering and Computer Science Department archive. Students who complete four units and a thesis in one semester receive a letter grade at the end of H196A. Students who do not, receive an IP in H196A and must enroll in H196B.

Grading: Credit and letter grade to be awarded on completion of sequence.
